TrustCommerce Integration with Practice Fusion

Integration Overview

TrustCommerce® and Practice Fusion, a Veradigm® Network solution, enable providers to accept and post patient payments in real-time within existing EHR workflows, minimizing staff disruptions and boosting efficiency.

Get Started

- Go to https://practicefusion.spherechannels.com to begin.
- Pricing: $10/month
- Flat rate 2.90% + $.30 per transaction

Key Benefits Include

- **Modern and secure payment experience:** Gives the ability to accept payments on smart payment terminals for a wide range of payment methods including EMV and magstripe (MSR) card-present transactions, Near-Field Communications (NFC), Apple Pay, and Google Pay.

- **Improved staff efficiency:** Eliminate the need to double post payments to patient accounts in Practice Fusion. Payments processed through TrustCommerce are seamlessly applied to the patient's account, streamlining your staff's workflow and expediting both check-ins and phone inquiries.

- **Reduce errors:** Automated posting reduces the opportunity to miskey a number and apply the wrong payment amount or charge the patient incorrectly.

- **Improved support:** TrustCommerce and Veradigm have collaborated for nearly a decade for integrated payments, working closely together to support their clients from sale, implementation, support, and upgrades.

PAX terminals feature a modern, intuitive design, as well as web-based connectivity that allows for easy installation.

Case Study

Scan the code to see how a medical group used TrustCommerce and Practice Fusion to simplify patient payments, improve efficiency and enhance security.
